- Turkey Office
- Feefo Platinum Trusted Service award
- Royal Mail Delivery Update
- Laugh of the Month!
- The Directory - **NEW!**
- Support Groups - Lupus - **NEW!**
- Silver in the News

---

## DPD Delivery policy has changed

*If you're not in, it will be taken to a Drop Shop for you to collect.*

Only YOU get messages from DPD, so if you are going out, you need to tell them. You do this through the DPD App, telling them to leave it safe in the porch, the shed or even with a neighbour, so watch out for messages on your mobile phone and download the app in advance now.

We've worked with DPD for many years and their system works extremely well BUT once it has left us, only you have control over your delivery.

See our [Terms & Conditions](#) for more information.

*Vulnerable People: Using the App, you can let DPD know you need extra time to get to the door or if you have any special needs. If you cannot do this yourself, ask a member of your family to contact Customer Services or call us.*

- *DPD Customer Services 0121 275 0500*
- *UK Colloidal Silver 01460 281098*

---

## Google Reviews

We've won the Feefo good service award again, so thank you so much for your reviews but if you have time, can you please leave us a Google review too?

This really helps us & if so, we would be very grateful.

---

## Your Exclusive Discounts

The buttons below INCLUDE this coupon & will deduct 10% off the selected products automatically. You can still use the coupon manually using the code below:-

# XM24TA19

---

# All year Offers!

## 4-Pack Specials with 25% discount

Our popular 4 for 3 bottle packs are always available on our website!

---

## Latest Lab Tests - October 24

How do we test the silver is a good question. Independent laboratories and lasers is the short answer. If you want to know more plus download our latest test results, [have a look here](#).

Neil & Max are still about & working 3 days a week from their Turkey office. They come to the UK regularly, covering holidays and providing support to clients. Thanks to modern communications, they are both still available on Neil's usual phone extension, taking calls & orders when needed.

---

## Feefo Platinum Trusted Service Award

We are beyond thrilled to have received the Platinum Trusted Service Award again from Feefo.

If you didn't know, Feefo is a renowned Customer Review system that only allows people who have a verified purchase to write a comment, which makes it more reputable and secure than other review systems out there!

We've received an average score of 5 stars out of 5 and can now post this in recognition of our effort and passion to provide the best Colloidal Silver, and top notch customer service on the market!

---

## Royal Mail Postal Updates

Royal Mail services are not as they used to be. I would allow twice the usual amount of time for delivery.

Although we include basic delivery in all purchases over £15, you have the choice to upgrade the service you need.

---

## Our continued Commitment to our Beautiful Planet

As many of you may know, we currently support the Woodland Trust to help fund natural carbon capture, an excellent way to combat runaway climate change. This means that every time you purchase any bottle of Colloidal Silver from us, part of the profits go directly to the Woodland Trust to further help them plant more trees! This is just the start of our efforts to push Britain forwards to a cleaner era. If you'd like to further help the Woodland trust in their wonderful mission, please click the link below to learn more and consider donating as well!

---

## Laugh of the Month!

Always surprises me how many sheep are into paintball.

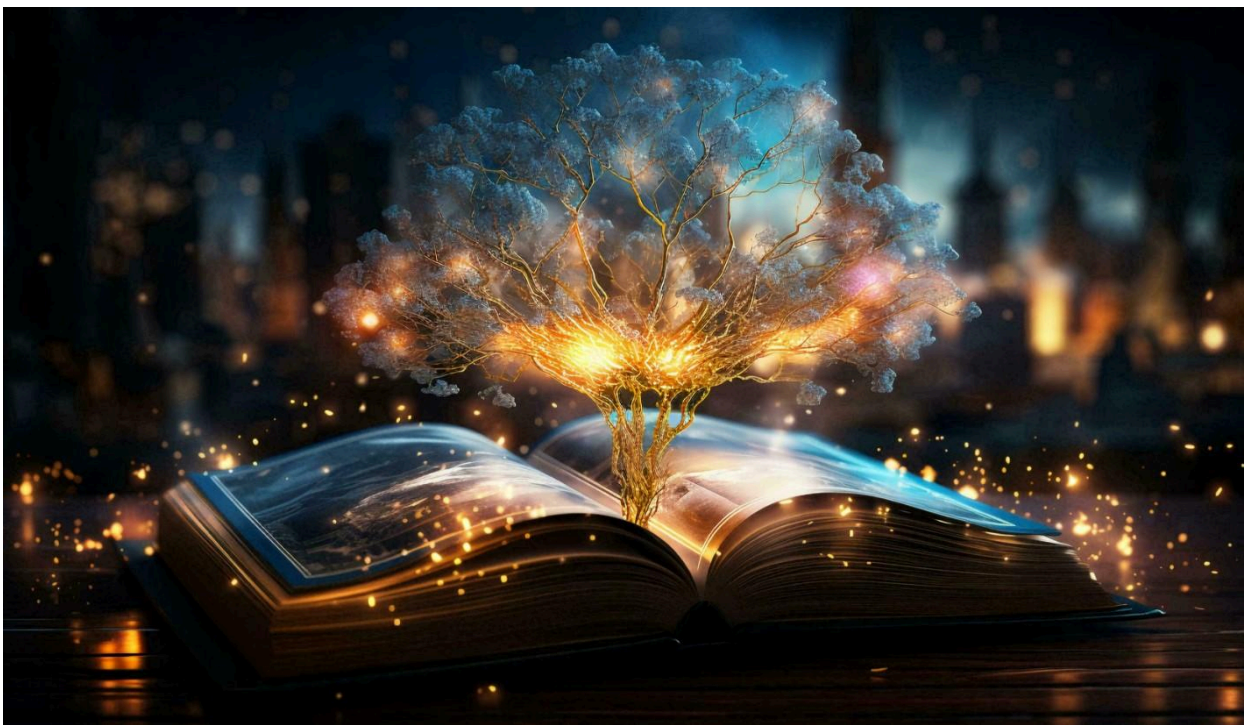

Please join us on Facebook page and have a chat!

---

The Directory

**\*\* Under Construction \*\***

As a manufacturer & retailer, we cannot give advice but we can recommend you to those that are qualified & knowledgeable in the use of our Colloidal Silver. This Directory is designed to guide you to those that can help you.

If you wish to be added to our Directory, please contact us [here](#)

---

## Support Groups

**\*\* Under Construction \*\***

There are many wonderful support groups around the world that usually provide free services and support. Many of these we support ourselves and wish to share their knowledge.

Canine Health Concern

## Silver In the News

---

## Silver May be the Answer to Biting Midges

Biting midges are tiny flying insects that spread deadly diseases among sheep, cattle and other livestock, and prevention usually relies on draining nearby wetlands that are vital to the ecosystem or using toxic insecticides that detrimentally effect the environment.

Fortunately, there may be a safer way to get rid of these pests. Researchers at Kansas State University, University of Arkansas and the U.S. Department of Agriculture have discovered in lab tests that 250 milligrams per liter of silver nanoparticles in water can destroy about 90 percent of midge larvae. text.
